

# Sustainable Plumbing Solutions

For 32 years Twin Rivers Plumbing has been green.

We have green on our signs, green on our clothes, green on our trucks, green in our office. We bleed green for our Oregon Ducks; wear green gear, paint our faces green, and cheer everything from “Gang Green” to “Go Green and Yellow.”

But, now, we are in a new era of “green” and we are embracing everything it has to offer.

In the past year, we have had the opportunity to work with local contractors and owners at Kendall Auto Group, Slocum Clinic, the Ten at Coburg, the University of Oregon Health Center, and Crescent Village to bring sustainable solutions in new construction to Eugene.

We love our state and are proud of everyone’s efforts to ensure that our future generations will be able to enjoy our community as we do, today.

Thank you for allowing us to be a part of making Eugene a greener place.

**TWIN RIVERS**
